Open Meetings

Law Info

The public has the right to attend meetings of public bodies, listen to debate and watch the decision-making process.

Overview

The Open Meetings Law applies to "public bodies." That term is defined to include entities consisting of two or more people who conduct public business and perform a governmental function for New York State, for an agency of the state or for public corporations, such as cities, counties, towns, villages and school districts including committees and subcommittees of these entities. Consequently, city councils, town boards, village boards of trustees, school boards, commissions, legislative bodies, and committees and subcommittees consisting of members of those groups fall within the coverage of the Law.

Committee staff prepares written advisory opinions in response to particular sets of facts and circumstances. Many are available online, organized by key phrase. For example, if you were interested in knowing whether a board

25 is required to post notice of its meetings online, you would
26 review opinions by clicking on "N" in the above index, then
27 scrolling down to "Notice." Please note that more recent
28 opinions have been assigned higher numbers.

29 The opinions represent the views of the Committee on
30 Open Government at the time that they were rendered.
31 They may no longer represent those views if, for example,
32 there have been subsequent court decisions or statutory
33 amendments that bear on the issues discussed in the
34 opinions.

35 Due to the repetition of the substance of various opinions,
36 not all opinions are available online. Only those that have
37 been determined to have precedential value or that are in
38 some manner unique are included.

39 Advisory opinions that are not available online, primarily
40 those prepared prior to 1993, are maintained by the
41 Committee on Open Government and at various law
42 libraries throughout the state. Copies of opinions are
43 available by [contacting the Committee](#).
