## **Airport Terminal Funding and Bus Stop Amenities**

**Sullivan County is spending \$24 million on a terminal at Sullivan County International Airport, with \$18.5 million funded by the state and \$5.5 million from the county, potentially from taxpayers. Is the \$5.5 million bonded or paid in cash?**

**The budget includes \$20,000 for the Move Sullivan bus route canopies, but there are no benches at major stops for people to sit while waiting. One woman waited nearly 20 minutes for the bus near Dunkin' Donuts and Liberty, highlighting the lack of amenities. Winter is approaching, yet there are no proper bus stop signs where the Move Sullivan buses stop, nor decals on the front of the buses to identify them. Riders can only recognize the bus after it passes, as the identification is on the side.**
