NOTES

1. Pathologist Dr. Slone has been a positive addition to our team. She is responsive to our requests, skilled, and personable
2. The purchasing Department has finally sent Dr, Centeno a contract to sign. As soon as she signs and sends her W-9, will have an additional Pathologist to add to our team, totaling three at our disposal.
3. Our office is in constant contact with Hospital Maintenance. They are waiting on the mechanical engineer's drawings. No work has been done in the room yet. Once the drawings are received, it will take approximately 6 weeks till we can install the new coolers.
