### Process

The SUNY System Administration compiles data on all 64 colleges within the SUNY System, and all campuses adhere to the same guidelines for their SIRIS (SUNY Institutional Research Information System) submissions, done through the campus's Institutional Research Office. Campuses complete an Early Student (ESS) data submission using data as of the census date of October 15 for Fall (March 15 for Spring, due 11/1 and 4/1, respectively). Campuses complete the End of Term (EOT) submission of the same data after the semester has ended. It is due on 2/15 for the Fall data and July 15 for Spring data.

# EQUITABLE FUNDING FOR NEW YORK'S COMMUNITY COLLEGE STUDENTS

The New York Community College Trustees respectfully request the following increases in the '25/'26 budget to put our students on a path to equity and social mobility:

1. \$30M to stabilize faculty and staff – cover the contractual cost increases for existing faculty and staff.
2. \$10M to address student success services – programs that lead to retention and improved student outcomes.
3. \$30M to reduce the financial losses from high-cost programs – cover the operating losses of high-need programs, such as nursing and advanced manufacturing.
4. \$30M to invest in scaling high-need programs that align with the governor's goals such as nursing and advanced manufacturing to meet the needs of New York state.
