To; Sullivan County Legislature

From: Diane Mestanza

Re: Adult Care Facility

Please note, that as a senior resident of Sullivan County, I have been appalled at the behavior of the Legislature over the past five years.

If the management had been left as it was, the facility would have maintained the rating it had in 2018. The patient care would still be above average and it would have invited many more residents, who could pay. The property is lovely, and is a selling point for permanent residence.

Now, we have a facility in need of extensive repair, a shortage of staff, because many left because of loss of benefits, lack of consideration by the management, and poor working conditions.

We also have to deal with the Federal Government's cuts to Medicaid, which is the sole payment for so many of ACC's residents. Besides which, the Rehab is below par, which is another deterrent for paying residents.

The greatest disgrace I see, is the lack of interest of many of our Legislators. Walking out when Health and Human Services is opened is a disgrace. It shows a lack of interest, and total disregard for the well being of their constituents. Even though they are not on that particular committee, they should listen.

MAYBE THEY WOULD LEARN SOMETHING ABOUT
RESPONSIBILITY AND COMPASSION !!!!!
