

Public Comment
Sullivan County Legislature
Public Safety and Law Enforcement Committee
Thursday, September 12, 2024

Good morning.

I am Martha Scoppa from Liberty.

I am also a member of the Senior Legislative Action Committee.

I am concerned about the timing of Legislative meetings on the 2nd Thursdays, even with the early start at 8:30 a.m. There are five committees scheduled and they include 17 reporting departments, plus discussion, presentations, and certificate awards. I think this issue was being addressed at the beginning of the Human Resources Committee this morning, but I arrived while the discussion was in progress.

We have two more committees today and it is already almost noon. Can something be done with the committee scheduling that works better for the committees and the public?

Thank you.
