Part 2: Impact Assessment

Part 2 is to be completed by the County Legislative Body (“CLB”) as Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted to the CLB for the proposed modification, consolidation or termination of a county-adopted, State-certified agricultural district or otherwise available to the reviewer.

In providing responses to each of the questions, the reviewer should keep in mind that the action proposed is the modification, consolidation or termination of an agricultural district(s). The action is not the land use or activity which will, or may, take place in the district(s). For example, it is not appropriate to consider the effects of management actions that may be taken by individual operators in conducting farming. Agricultural farm management practices, including construction, maintenance and repair of farm buildings, and land use changes consistent with generally accepted principles of farming are listed as Type II actions in 6 NYCRR §617.5(c)(3), and these actions have been determined not to have a significant impact on the environment.

	None to small impact may occur	Moderate to large impact may occur

Part 3: Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur,” or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short term, long-term and cumulative impacts.

The action contemplated herein, is a modification of Agricultural District #4. The modification only involves the inclusion of a certain number of parcels into the District. The inclusion of parcels into the District will in no way create an adverse environmental impact of any nature.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
