Strategy	Activities Supporting the Strategy	Performance Indicators	
Ease Access to Care	<ul style="list-style-type: none"> • United Sullivan is now meeting weekly. Primary goal is to minimize the number of persons who are unable to access care because they entered the system of care through the “wrong door” <ul style="list-style-type: none"> ○ Providing a forum for all provider agencies in the county to promote capabilities and obtain mutual support for clients/patients from the interagency team. ○ Working with partners to establish a web-based interagency referral system • Community Services Access: Lease agreements signed with Astor and Lexington. Working in collaboration with OMH and OASAS to transition youth and substance use disorder patients from DCS to Astor and Lexington. <ul style="list-style-type: none"> ○ Clinic access continues to be limited for MH patients due to staff shortage. Continuing to triage for hospital discharges and court referrals – predominately seeing persons for medication management. CASACs will transition patients to Lexington and then shift focus to dual-diagnosis patients. • Crisis Mental Health Response: We are abandoning plans to develop a 311 Call Center due to recent addition of nationwide 988 services. We will continue to review RFP responses received from four agencies and re-prioritize available funds to outreach services for persons in crisis. • Vaccination clinics held monthly including boosters, childhood immunization
